Executive Officer's Report

The 27th annual Shark Bay Fiesta has come to a close with our hard working team catching up on plenty of sleep and finally getting our houses and lives back in order. My floors are mopped and vacuumed so that's a bonus! Our community is drawn together to host this event, running events collaboratively with many items being borrowed from other groups or individuals (marquees, bain-maries, banners etc), as well as donations of items for the community auction, cash sponsorship to assist with prizes, entertainment and other social development opportunities. Continued support from our community, local and regional businesses has seen the annual event grow this year as well as the increased value of the event, as we can justify the economical benefits it brings to Shark Bay.

Its still the early stages of wrapping up the event finances however we can advise there was an exchange of around \$60,000 so its more then just a little community event! We are thrilled with the success of the event especially the financial rewards our local community groups received fundraising. Reports of finances and participation results back from community groups and activities include;

- Shark Bay P&C Association - \$1,117.57 from two money boards and meat and gravy rolls catering.
- Shark Bay Bowling, Sport & Recreation Club is still calculating their profits but took \$1,127.80 from the sale of their meat and gravy rolls catering.
- Shark Bay Business & Tourism Association profited \$1,500 from 14 quiz tables booked (150 people).
- Shark Bay Youth Group hosted and seated 79 at their exclusive long table high tea. They are keen to continue with the event in future as they took a \$1,663.95 profit.
- Shark Bay CRC kids sports fundraiser from the sale of mullet, sambal and rice catering one night by the Tidal moon men welcomed a \$363.32 profit.
- Shark Bay Arts Council - \$130 as they assisted to make 13 headpiece and handbag creations.
- Biggest Morning tea cancer fundraiser raised \$387.05 with a special thanks to Lisa and Pedro for kindly donating plant prizes for a raffle.
- \$160.30 was raised on our dress up pirate day which has all been donated to the official Pirate Day fundraising group raising funds to support childhood brain cancer research.
- 38 attended the gardening information and questions session with Trevor Cochrane from Gardening Australia.
- Over 20 markets stalls for the weekend.
- 165 Economic Impact Surveys were returned and we are still calculating the results to see the financial benefits this event brings to Shark Bay.
- Over 650 meals were served.

These above organisations and groups did an amazing job catering or hosting fundraisers, especially when they can't predict the attendance numbers or the weather. The Shark Bay Community Resource Centre (SBCRC) team appreciates all the hard work each of these groups put in to enhancing our Fiesta.

The fishing competition welcomed 122 fishers this year (only up by 2 fishers from 2021) and included only 35 boats. as well as 28 kids in the kids "Catch & Release" fishing

competition. As you can imagine, the kids had lots of fun, with several decent bream being weigh in, as well as a black snapper and baby blue bone. It was a magic day in the Bay and the kids really enjoyed themselves.

This year prizes included cash, chiller bags, Yeti products and filleting knives. We can advise in many cases, cash prizes came back over the bar or through community auciton purchases. At the end of the day, the more money the event makes, the more money we can put back into our community!

A big thank you to all our sponsors and especially the Shire of Shark Bay for donating \$8,000, Gascoyne Development Commission for their \$500 contribution and Ingal Civil for their \$2,000. Also thanks to all the local and regional businesses for their support, in the way of equipment, advice as well as cash support. Lastly and most important, a big thanks to our 2022 Fiesta event team who have gone over and above to please the community. Everyone pulled together when we needed you so I must personally thank all our helpers; Natt, Katie, Judy, Joe, Brian, Tegan, George, Sherry, Claire (Harrower & Cooper), Bryan, Trinnie, Jason, Dave, Bec (Cocks & Stanley), Greg, Cheryl, Amber, Sherry, Porter, Jess, Kim, the Tidal moon crew, Julie (Robins & Kent), Corina, Jodie, Liz and our auctioneer Alex.

Next years Fiesta will hopefully be as great but we always aim to get better and more inclusive of our community. We have learnt several lessons as you do after any event and have some great feedback we can look into from our surveys. We can't wait to see you again in 2023 as it will be a late Fiesta 19th-26th May 2023 (as it always starts the Friday after Mother's Day) at our 28th annual Shark Bay Fiesta.

Cheers

BAITING TO PROTECT NATIVE WILDLIFE

Under the Parks and Wildlife Service's *Western Shield* program, baiting to control foxes and feral cats occurs on more than three million hectares of conservation lands in Western Australia.

The baits used are toxic to introduced animals but not to native animals which have an evolved tolerance to the active compound (1080). All baited areas are signposted.

Baiting occurs on a regular and ongoing basis to protect endangered native animals including the numbat, western ground parrot and western swamp tortoise.

Attention pet owners: these baits will kill domestic dogs and cats. Baited areas must be considered dangerous for pet dogs and cats at all times.

For more information and maps on areas baited under *Western Shield* visit dbca.wa.gov.au/westernshield or contact your local Parks and Wildlife Service district office.

Western Shield is generously sponsored by Alcoa, Tronox and Western Areas.

— FREE — PULSE OXIMETER

The Department of Health is offering free pulse oximeters to vulnerable members in regional communities. A pulse oximeter is a small peg-like device that clips onto your finger to read your heart rate and blood oxygen levels.

Combined with the Department of Health's free WA COVID Care at Home service, these pulse oximeters will help to reduce pressure on Shark Bay's limited health care system.

The Shire has been issued with a number of oximeters that are free for eligible members of the community. If you can answer yes to the following questions you can pick up your oximeter at the Shire administration office:

Is your immune system compromised?

Do you have a chronic illness?

Are you pregnant?

Are you over 50?

Please note, if you are unable to collect your oximeter from the Shire Office, alternate arrangements can be made. Please call 9948 1218.

A Month in Town with the Boys in Blue

I have been asked a few times lately about electric scooters and what people can and can't do with them, I understand not everyone likes them unfortunately they are here to stay and as time goes on we will only see more if anything. I thought I would take this opportunity to answer a few frequently asked questions and provide some further information around their use.

What is considered an eRideable?

- A small electric rideable device with at least one wheel
- Is less than 125cm long, 70cm wide and 135cm high
- Is 25kg or less and not capable of travelling faster than 25km/h on level ground

What isn't an eRideable?

- eBicycles (power-assisted pedal cycles)
- Segways (electric personal transporters)
- Motorised wheelchairs
- Motorised scooters less than 200w

These devices are already governed by their own regulations under the Road Traffic Code 2000 and are not included in the new eRideable rules.

Where can I ride my eRideable?

- eRideables can be ridden on
 - footpaths
 - bicycle paths
 - shared paths
 - local roads without centre lines and a speed limit of 50km/h or less

- They may be ridden in bicycle lanes, but only on roads with a speed limit of 50km/h or less

Where can't I ride my eRideable?

It will be illegal to ride an eRideable on:

- A carriageway with a dividing line
- A carriageway with a speed limit exceeding 50km/h
- A one-way carriageway with more than one marked lane

How fast can I travel on my eRideable?

- eRideables ridden on footpaths will be restricted to 10km/h
- eRideables ridden on bicycle paths, shared paths and local roads can be ridden up to 25km/h

What safety equipment is required in order to be lawful?

- eRiders must wear an approved helmet
- eRiders must have lights and reflectors when riding at night
- Where possible, a bell or other warning device must be fitted to the eRideable and sounded when approaching pedestrians on footpaths

Can I use my mobile phone?

- eRiders must not touch or use a mobile phone when riding

- Work effectively with your partner on ambulance calls and with other members of the sub centre

escooter

Drink and drug driving

- eRiders must maintain proper control of an eRideable device at all times and are subject to the same drink and drug driving laws as motor vehicle drivers

Minimum age

- eRiders must be at least 16 years of age
- Children under 16 will still be permitted to ride low-powered eScooters which do not exceed 200w or 10km/h

What if I have a device that doesn't meet new rules?

Motor vehicles and electric devices that are capable of travelling over 10km/h have previously been illegal to ride on public roads and paths. If you have a motor vehicle/device which falls outside of the eRideable specifications (125cm long, 70cm wide, 135cm high, 25kg and capable of travelling faster than 25km/h) it will continue to be unlawful to be ridden on public roads and paths.

How to share the road with other road users

Making every journey safe is up to all Western Australians whether you're walking, cycling, driving, or riding. As an eRider you need to be mindful and respectful of all path users by:

- Complying with speed restrictions
- Giving way to pedestrians
- Keeping left unless overtaking
- Using a bell or verbal warning when approaching pedestrians or other path users
- Ensuring lights and reflectors are used when riding at night
- Not carrying animals or additional people on your device
- Use hand signals to indicate your intentions to other road users when turning

What to look for when buying an eRideable

If you're considering buying an eRideable, please ensure it is compliant with the new regulations:

- Less than 125cm long, 70cm wide and 135cm high
- 25kg or less and not capable of travelling faster than 25km/h on level ground
- No sharp protrusions

I hope this clears up some common questions that you may have, as town gets busy with tourists and their eRideables, I can assure you that we will be conducting patrols and speaking with people to ensure they are doing the right thing.

Kind Regards
Constable Colin

We are having the difficult term that we knew was coming – our local COVID peak started a little later than the Perth metro area, but it's certainly here now. Our staff team is coping admirably with the days when we are short-staffed and with keeping quality education going 'no matter what' for the students at school, and those able to work at home. Thank you to all our school families for keeping us informed and bearing with any changes in routine as we adjust to daily circumstances.

Reading and Homework

All students benefit with some age-appropriate home study to reinforce their learning at school, and so that you are involved in their learning journey. This might include reading, spelling lists, maths practice or work to complete. Please check with your child and their teacher if you are not sure of what is expected for them.

Reading, in particular, has huge benefits for all ages. The Premier's Reading Challenge would provide a great way to refresh your child's home reading commitment and offers some fabulous prizes.

Parents and families - Premier's Reading Challenge (premiersreadingchallenge.wa.edu.au)

Reading just 10 minutes each day makes a difference. Reading takes you anywhere, and by making time each day to either read with your child or children, or by encouraging them to read, you are making a huge difference to their literacy.

Join the Premier's Reading Challenge and be your child's reading legend.

Get started

1. Sign up and create an account using your email address and details.
2. Complete your child or children's details to register them for the challenge.
3. Let your child select an avatar.

You can register more than one child at a time.

The challenge

In your account you will have access to your 2022 Premier's Reading Challenge

where you can:

- access your child or children's reading challenge account.
- find more than 7,000 book titles from our booklist.
- log your child's books - these can be books from our booklist or new titles (these include recording foreign language material and books read in a different format).
- encourage your child to add a review or 'like' the book.
- view your child's bookshelf, to see the books you have logged during the challenge.
- track your child's progress in the challenge.

You will need to log at least 12 books your child has read over this challenge, but feel free to keep adding more titles as they read.

By logging your child's books, they will be in the running to win some fantastic prizes, including family holidays and experiences across Western Australia.

Mothers' Day

We celebrated Mothers' Day on Monday 9th May, with an Assembly in which students acknowledged their own mothers, and shared a morning tea afterwards.

Creativity

We enjoyed class workshops for singing and circus skills through week 2 of term when Creativity visited.

Photography Competition

Congratulations to our winners:

1st Prize: Keesi Sadler

2nd Prize: Connor Cooper

Year 8 Woodwork

Well done Year 8s on making your enjoyably frustrating basketball toys!

Safety on site

- As for everyone in Western Australia, we ask that you monitor your child/yourself for symptoms of COVID-19 and get tested and isolate until you receive a negative result, if symptoms develop.
- If you or your child develop symptoms, please do not attend school.

You can find out more about what to do if you develop symptoms or are a close contact, including testing dates, at <https://www.health.wa.gov.au>. If you have queries or concerns, please contact WA Health on 1300 316 555. If you or your children need support, the following services are available and free of charge:

ADF Information session

We were grateful to Tom and Erica who visited from the Australian Defence Forces to explain career options to our secondary students. The breadth of opportunities is amazing and they emphasised the importance of a base of good work ethic, attitude and core literacy and numeracy. We have leaflets and contact information for anyone interested in knowing more.

P&C

Our P&C continues to provide great support for our school and enrichment for students. LEGO club is going strong – currently in lunchtimes – and a P&C lunch is always a treat. Thanks to everyone who supports our P&C, and special thanks to our committee.

High Tea

Shark Bay Youth Group hosted the High Tea during the 2022 Shark Bay Fiesta. THANK YOU to Jo for the amazing food, to Bryan, Brian and Jay for serving the champagne and keeping the water topped up, to the CRC staff for creating the flyer, selling the tickets and helping pack up. Special mention to our youth; Tiah, Telleisha, Emily, Brody, Jai, Isabella, Sophie, Bodhi & Mathias. Your service was polite, professional and very friendly and you made the marquee look awesome! Well done. Thank you to our sponsors; Shark Bay Aviation, RAC Monkey Mia Dolphin Resort, Denham Diesel Services and Shark Bay Pharmacy; we really appreciate your support. Congratulations to our Best Dressed Winners and our Raffle Prize Winners. Lastly, thank you to the 79 wonderful people who came to the High Tea, you all look beautiful and it was great to see so many happy people together sharing a meal, a few laughs and a drink or two!

Creativity Workshops

Shark Bay Youth Group were given an amazing opportunity to participate in circus skills workshops with Creativity.

Tiah, Telleisha, Emily, Brody, Katie, Bodhi & Sophie had a blast learning new skills, overcoming fears and ticking things off their bucket list! In their words; "It was awesome... wonderful... amazing... brilliant.. fantastic.. and entertaining".

A very BIG THANK YOU to Crystal, Dawn, Theaker, Beth & Nat for taking such good care of them!

Shark Bay P & C Association

Mothers Day

Our mums were treated to a lovely morning at school with an assembly all about them. Each student stood up and told everybody why they loved their mum, with some humorous but loving reasons to be shared. That was followed by a delicious morning tea prepared by Miss Bec, Miss Chrissy, Mr Riddick, Miss Parsons, Ms Brennan and Miss Tish and also the drawing of the Mothers Day Raffle.

Congratulations to our Mothers Day Raffle winners!

- 1st Trudy Grant
- 2nd Julie Robins
- 3rd The Harrowers
- 4th Trudy Grant

Thank you to the following amazing sponsors for their generous donations, Shark Bay Pharmacy, B Well Health, Old Pearler Restaurant, Summer Gypsea, Captain Cutters Hair Salon, CDH Electrical and Kathleen Gibbs.

Our Mothers Day stall made a profit of \$44 and our raffle a \$242 profit.

Shark Bay Fiesta

The opening night of the Fiesta was catered for by our P & C with scrumptious beef and gravy rolls and coleslaw on the menu. It was definitely a cold night to open the event but nearly selling out and making a profit of \$366.47 made it well worth braving the elements. A big thankyou to Miss Bec and Tish for assisting me on the night to sell the meals.

We also had 2 money boards over the week. The winner of the \$250 was Daniel Cocks and the \$500 board was Michael Doney with a total profit of \$751.10

We are back on track with the usual timetable now the Fiesta is done and dusted subject to the health and participation of our families. A big thank you to everyone who joined in our Pirate Day during the Fiesta as we made a donation of \$160.30 to support kids brain cancer research.

Afterschool Sports Sessions

Afterschool sports sessions continue on Monday and Wednesday afternoons with Tianna. All participants at the Centre are asked to clean up and pack away equipment after using it and must at all times treat property with respect. Failure to do so may result in children receiving a banning notice for a period by Recreation Centre staff. We must note that the vast majority of local kids especially understand and follow the rules but its a shame a few continue to have to be reminded.

Children are discouraged from entering into any storerooms to access equipment or to prop open any exit doors. Staff are more than happy to assist, so asking politely will get you a long way!

Night sports sessions

Viv continues to run her nightly sports sessions on a Monday and Wednesday evening. On Monday's from 6pm there is a group of badminton players who hit the courts for 2.5 hours. Whether you're a badminton beginner, veteran, or just looking to have some fun - Viv has you covered as equipment is provided.

Wednesday's from 6pm (although people start arriving from 5.45pm to warm up) is also a great workout for any adults keen to play, umpire or watch some basketball. Teams are made up on the night and are multisexed.

Starting fields improved again during May with the weather now becoming cooler and the winds dropping off. Some rain events continue to help green up the course and regular mowing of the fairways has started. The club welcomed two new members – Paul Reilly and a returning member, John Lewis.

Preparing for the Denham Open later in June, a Saturday 18-hole competition commenced on 21 May in addition to the regular 9-hole comp. The following lists the winners and unners-up for April-May.

Event – Stableford	Winner (Score)	Runner-Up (Score)	Nearest the Pin*
Wednesday 27 April	Peter Llewellyn (20)	Paul – Visitor (17)	Bomber (Visitor)
Saturday 30 April	Colin Ashby (18)	Peter Llewellyn (17)	-
Wednesday 4 May	Jill Deschamps (18)	Peter Llewellyn (15)	-
Saturday 7 May	Peter Llewellyn (20)	Jill Deschamps (18)	-
Wednesday 11 May	Paul Reilly (20)	Peter Cope (20)	Peter Cope
Saturday 14 May	Chris Galvin (16)	Peter Cope (15)	Mick Parry
Wednesday 18 May	Mick Parry (18)	Jill Deschamps (16)	-
Saturday 21 May – 9 Hole	Jill Deschamps (18)	Brian King (16)	Jill Deschamps
Saturday 21 May – 18 Hole	Chris Galvin (33)	Peter Llewellyn (32)	-
Wednesday 25 May	Brian King (19)	Mick Parry (18)	Peter Llewellyn

* Nearest the Pin second shot on Wednesdays.

Handicap movements during the month saw Peter Llewellyn, Chris Galvin and Peter Cope each drop a stroke to 14, 16 and 33 respectively.

More volunteer work on the course took place during May replenishing the remaining six greens, maintaining the clubs golf carts. Preparations have started for the Denham Open in late June and nominations have started to roll in.

Club competitions will again be 9-hole stableford events played every Wednesday and Saturday with a 1:30pm registration for a 2:00pm tee-off. In addition, 18-hole competitions will be held on Saturday until at least the Denham Open in late June – be at the clubhouse at 11:30am for a noon tee-off. The bar at the 19th Hole is open following the game.

Visitors are welcome at any time and visitor green fees are \$5 for 9 holes (honour system) with cards available at the clubhouse. For those who want to have a hit after work, some shorter rounds (4 or 5 holes) are available.

Non-golfing visitors are reminded to please keep their vehicles off the fairways to assist us in minimising erosion of the course.

Full sets of clubs are available at no cost on club competition days or by prior arrangement at any other time. Motorised buggies are available for hire on competition days at \$5 per player for 9 holes for non-members and \$3 each for members.

You'll hear different phrases and bowls terms used in different clubs:

- A jack is also known as a cot, the pill, the dolly, kitty or the white
- A bowl is known as a wood
- The ditch can also be referred to as the gully, trench or bin
- The rinks are also called the greens or the blue
- A heavy bowl is known as the drive, a fire, a dam buster or a slam
- To draw or touch the jack is a toucher or kiss
- Grass is also known as land

Oakley Earthworks Shark Bay Speedway Club

On Saturday 7th May we hosted our second club meet for the year. A total of 31 drivers participated in the day over our normal club divisions. A huge congratulations to Shark Bay's very own local school teacher Mr Riddick on winning his first ever racing sash! It has only been two years in the making, a lot of racing rubber and many dents and broken panels but he finally got one! Also a big congratulations to Kaylee Francis for winning her first ever feature race, straight off the back of a very nasty car rollover only the week before at Geraldton City Speedway. She showed a lot of determination and strength to get back out there the following week, and this is what we love to see in our little racers.

A huge thanks goes out to our wonderful committee we currently have, who help make race days a breeze and my job as president leading up and afterwards a lot easier. Your work and commitment to the club is very much appreciated. We also can't go racing without a huge field of volunteers, with too many to list we thank you all for your time and efforts you have given so far this year.

Next up we host our trophy day for the Junior New Stars and Top Stars. So make sure you pencil in Saturday 18th June at Shark Bay Speedway Club and come up to support the future of our next generation of young drivers.

*Cheers,
Mick Reynolds
President*

Huge thanks to Volunteering WA and Lotterywest for funding our WOW celebration this year. Our SES volunteers are so generous with their time and skills, we wanted to recognise their contributions with a gift that is unique to the Shark Bay SES.

Call out

We did receive a few calls on the Thursday before the Fiesta when the big storm hit and the town flooded quickly due to the downpour. Most damage was received quickly to foreshore businesses as the water run off poured quickly down the hill onto Knights Terrace. The back of the Shire office was under a foot of water as was the back of the old Azure cafe and Shark Bay Supermarket. A big thank you to SES volunteers for tarping and sandbagging a few businesses as well as a few community volunteers who assisted to fill sandbags. It never rains in the Bay.... just pours when it does!

Upcoming SES Training courses

General weekly unit training is held each Monday from 5pm at our local SES unit. New members are always welcome.

Living with History

Useless Loop

About late 1961 the late Garrick Agnew had the idea of starting a solar salt operation at Useless Loop. The first two employees were George Wear and Darcy Edwards. Darcy, who was no relation of the well-known local family of that name, operated a medium sized earthmover in an attempt to construct the first bar. George Wear was cook and general hand.

It was only a token operation as most of the material deposited during the day was washed away at night. After awhile Agnew got an Adelaide Steamship company interested in the project. They brought in DFD Rhodes to do the earthmoving. Frank Burns was Agnew's representative on site, he had a separate crew, all of but a few were locals. In the early stages there were John Poland, Ken O'Neill, Jim Hackett, Harry Oakley and myself.

Rhodes had a separate camp, which consisted of tents, and a corrugated iron and timber cook house and mess. Our gang had better transportable living quarters and mess, but no canteen. It was a dry camp by order, no grog was allowed.

There was no regular air service. We cleared a bit of a strip in case a flying doctor was needed. Burns had a seven metre inboard-outboard boat (the Salty Jane), in which we travelled to Denham once a week for stores and mail.

My job as Burns' foreman was mostly to keep an eye on the contractors and make sure that the material they carted to the levees was up to the standard. As some of the operators seemed to think as long as their machine was loaded it did not matter what the load consisted of, this led to some rather heated discussions. We worked long shifts - seven days a week. Sometimes the machines

worked all night to take advantage of the tides.

The local chaps had various jobs. Ken O'Neill was the full-time water truck driver as all our water had to be carted from Bibagidee Mill. John Poland did any boat

work. Jim Hackett was a great toiler and a bit of a character. One day I left him to dig a rather large hole for a concrete engine block and promptly forgot him. When I remembered him and went back to see him he was up to his waist in water and still digging. On asking him what he was doing, I was informed that when he was told to dig, he dug, and it was up to the stupid blankety foreman to tell him when to stop.

The salt project was not popular in Denham. At that time there were more fishing boats operating here. Although smaller ones. They were all owned and operated by locals. I don't think many got rich but they still made a living and were content.

Planet fisheries bought the fish and also employed anyone who wanted a job, both men and women. A lot of the fishermen maintained that the salt project was closing off valuable breeding grounds of various types of fish. Taking into account all the experience these men had in local waters, it's almost certain that they were right. Things have changed a lot at Denham and at the Loop since those days. I guess everyone is entitled to their opinion as to whether it is for the better or the worse. As they say, you can't stop progress.

Government of Western Australia
WA Country Health Service

It's important to see your doctor, clinic nurse, or Aboriginal health worker, despite what else is happening in the world.

Please visit your doctor if you are over 40 years of age and coughed up blood, or had blood in your poo or pee, or noticed any of the following for more than 4 weeks:

- Problems peeing
- Runny poo
- Losing weight (without trying)
- Finding it hard to breathe
- An unusual pain, lump or swelling anywhere in your body
- A new or changed cough (that doesn't go away)
- A new or changed spot on your skin

It doesn't mean you've got cancer – often, it turns out to be something less serious. But telling your doctor straight away ensures any tests or treatment can begin as soon as possible.

To find out more, visit <https://bit.ly/3wfnTsw> or call our 13 11 20 cancer information and support line.

Frequently asked questions:

"Can't my symptom wait until after COVID-19 blows over?"

Cancer does not stop or slow down for a global pandemic. If you have a cancer symptom, it's important to seek medical advice now rather than waiting any longer. This ensures any further investigation or, in some cases, treatment can begin as soon as possible. If it is cancer, the earlier it's found, the better the chance of successful treatment.

"What is my cough and shortness of breath? Is it cancer, COVID-19 or common cold?"

It is important to remember that while respiratory symptoms may be due to a common cold, flu or COVID-19, they may also be lung cancer, which is why an appropriate investigation is necessary.

GPs play an important role in the identification of lung cancer, so we encourage people with shortness of breath or a persistent cough that has lasted more than four weeks to contact their GP without delay and discuss their concerns. It is important that you tell your GP everything about your cough and whether you have any other symptoms such as unexpected weight loss, fatigue or loss of appetite. Remember, they are there for you as usual. GP practices have put in place measures to manage patients who present with respiratory symptoms in the context of COVID-19.

"Is it safe to see health professionals at the moment?"

Many GPs are doing more appointments on the phone or online instead of face to face. This is to reduce the risk of COVID-19 to them and their patients. When you speak to them, they will ask about your symptoms and tell you if you need to go into the surgery to see a GP.

They may suggest that you keep an eye on your symptoms and arrange another appointment to check in with them after a certain amount of time. So make sure you know when and how to contact them. And contact them again if your

symptoms get worse or don't get better.

GP clinics, pathology/diagnostic centres and hospitals are experts in both preventing and detecting infectious diseases. They follow best practices to minimise the risk of transmission of all infections, including COVID-19. Your general practices or health centre might look a little different, but the changes are designed to reduce risk and keep everyone well. Changes may include staff wearing masks and/or asking people to wait outside or in their car to keep space between patients. If you are concerned, ask the receptionist when you call about what to expect at the clinic and what steps they have put in place to keep you safe.

Further information about Telehealth can be found at: <http://www.wacountry.health.wa.gov.au/telehealth>.

"If I have to go to Perth for cancer treatment, where will I stay?"

Cancer Council WA has two self-catering accommodation lodges in Perth for cancer patients and their carers from regional WA to stay at while they access treatments and appointments in the Perth metropolitan area. A range of social distancing and hygiene protocols are in place for guest safety.

For more information about these facilities, costs, and financial assistance, visit www.cancerwa.asn.au/patients/support-and-services/accommodation-services/

"Is it safe to travel to Perth?"

It's best to discuss any concerns about your personal susceptibility to infection with your doctor. Your doctor will be able to provide personalised advice about any specific precautions you should take in whilst travelling to and staying in Perth. These may include methods of travel or additional distancing measures.

"Is there anything I can do to prepare for my Telehealth appointment?"

Yes. This video created by Cancer Council Australia offers five helpful tips on preparing for a smoother Telehealth appointment, and this video created by Cancer Research UK also provides good tips on what to do to get the most out of your Telehealth appointment.
